- 3B7 - Rachid, 3B8FQ has received approval and will be active as 3B7FQ from St. Brandon Island (AF-015) in August. This may be his last visit to 3B7 for the next five years. It will be a working trip, with time shared for maintenance on the island's meteorological equipment. He will depart Mauritius on 10 August and return from St. Brandon on the 30th. Operation will be SSB and CW on 40-10 metres. QSL via K5XK. [TNX K5XK]
- 3D2_cr - Conway Reef (OC-112) was activated for the first time in April 1989 by 3D2CR. Twenty years after that event, Hawa, DK9KX (ex 3D2CR) will return to Ceva-I-Ra along with six other operators (namely Norbert/DJ7JC, Jan/DJ8NK, Dieter/DJ9ON, Heye/DJ9RR, Hans/DL6JGN and Ron/PA3EWP). They plan to be active between 1 and 10 October, depending on weather conditions, and to operate SSB, CW, RTTY and PSK on 160-6 metres. The callsign will be announced when the operation starts. QSL via DJ8NK, direct or bureau. A web page is under construction. [TNX DJ8NK]
- 3W - In March 2008 XV3M (F6BUM) activated IOTA group AS-185, but was able to make only 577 QSOs under difficult circumstances [425DXN 886]. Those who did not work Jack will be given a new chance on 10-18 April 2010, when Hans-Peter, HB9BXE and a large group of operators from Switzerland, Germany and Vietnam will be active as 3W6C from Con Co Island. Further information is expected in due course. For the time being, please visit <http://www.3w6c.grv.ch/> and consider supporting the project with a donation. [TNX HB9BXE]
- 4W - Chris, VK4FR works for the Australian Armed Forces and is currently stationed in Dili, East Timor (OC-148) through October. He operates SSB and digital modes as 4W6FR in his spare time. QSL via VK4FW. [TNX VK4FW]
- 8Q - Pierre, HB9QQ is now active as 8Q7QQ from the Maldives until 11 July. He operates on 50183 kHz in JT65A mode (first period) around moonrise and moonset in search of Sporadic E and EME contacts. Other activities include 30, 17 and 12 metres. QSL via mome call. [TNX HB9PL]
- 9Y - The Trinidad and Tobago Amateur Radio Society (TTARS) will be QRV during the IARU HF World Championship (11-12 July), probably as 9Y4HQ (callsign to be confirmed). IOTA Chasers please note that activity will take place from two different locations, one on Trinidad (SA-011) and the other on Tobago (SA-009). The station on Tobago is most likely to operate on 40 and 80 metres. [TNX The Daily DX]
- CT9 - Look for CT9/DB2TR, CT9/DK7TM, CT9/DL1CW, CT9/DL1SBF and CT9/DL3ZH to operate SSB, CW and RTTY from Madeira (AF-014) on 10-15 July, IARU HF World Championship included. QSL via home calls, bureau preferred. [TNX DL1SBF]

QSL via EI7CC. Before and after the contest, on 23-27 July, look for the individual operators using EJ prefixes. [TNX EI7CC]

FT5G - The much anticipated DXpedition to Glorioso (FT5GA) has been postponed again, hopefully at the end of August. The main cause for this unexpected postponement is a stability problem of the runway on Grande Glorieuse, which must be fixed in early July in order to allow safe landings. However, the silver lining is that two more operators (David, F8CRS and Bernard, F5LPY) will be able to join F4EGS, F5IRO, F5PRU, F5RQQ and F5TLN. They still expect to remain on the island for about three weeks, and to have four stations active 24/7 (three on the HF bands and one on 6 metres). [TNX F5NQL]

G - The Wakefield & District Radio Society will be active as GB1HI from Holy (Lindisfarne) Island (EU-120) on 10-13 July. QSL via M3ZYZ.

DX SUMMIT ---> In the process of making the DX Summit service more focused on younger user segments and non-amateur radio population, two features have been added recently to the Radio Arcala (OH8X) DX Summit portal (<http://www.dxsummit.fi/>). Each spotting and spotted callsign is automatically linked to qrz.com, providing a more human link to the personal profiles of people and to their pictures. Additionally, each line carries the name of the DXCC country spotted.

In a few months time, custom selected filters will be provided to the public allowing users to receive personalized spots. While initially the selected spots will be sent to your personal e-mail address, the ultimate aim is to offer an SMS (short message service) option to DX Summit users. This service is a non-profit exercise for Radio Arcala, but donations will be gratefully accepted. A Help Desk for regular users and for S/W developers is being set up, and support is currently channelled through the relevant button: donations will be used to help fund exclusively the DX Summit Help Desk function, and OH8X will send you a Radio Arcala wall calendar postpaid to those who donate. Support related to the calendar is limited to the months of July and August 2009. [TNX OH8X]

NCDXF ---> The Northern California DX Foundation Board of Directors is pleased to announce the appointment of Ed Muns, W0YK, as an Advisor to the NCDXF Board of Directors. Ed's primary duty, along with Doug Bender, WW6D, will be working with the NCDXF website (<http://www.ncdxf.org>). Since May 2008, NCDXF has provided financial help to 4W6R (Timor Lorosa'e), VK9XWW (Christmas Island), VK9CJW (Cocos-Keeling), OJ0B (Market Reef), VK9DWX (Willis Island), A5100A (Bhutan), E44M (Palestine), FW5RE (Wallis & Fortuna), K5D (Desecheo Island), VK9LA (Lord Howe Island) and S04R (Western Sahara). Contributions can now easily be made on-line using a SSL secured web server (<https://www.ncdxf.org/donate>). [TNX W0GJ]

QSL 4S7BRG ---> The new QSL route for Mario, 4S7BRG is via LZ3HI. Cards can be requested direct (Emil Stoikov, P.O. Box 8, 6000 Stara Zagora, Bulgaria) or via the bureau.

QSL HQ9R ---> It seems that quite a few people are still sending cards for HQ9R to the former QSL manager (N6FF), who has been a Silent Key since August 2007. Please note that the correct QSL route is via K5WW. [TNX K5WW]

QSL VK9LA ---> "After much haggling with the Australian Customs Department, we have finally received the QSL cards from Czech Republic", Bill Horner, VK4FW says. He had planned to have all direct QSLling done by the end of June, but this is no longer possible. On 2 July Bill left home for a two-month family holiday. He processed and mailed as many cards as he could before leaving, so "many of you will receive your cards within a few days, but there will be also many that will not". Please be patient.

QSL GALLERY ---> The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Twelve different galleries include cards for the ten Most Wanted DXCC Entities (306 QSLs), the 58 deleted DXCC entities (961 QSLs), obsolete prefixes (2613 QSLs), stations from Magrebh from 1947 to 1962 (315 QSLs), Antarctic bases (768 QSLs) & TAAF (Terres Australes and Antarctiques Francaises, 248 QSLs), the various French DXCC island Entities

in the Pacific Ocean (251 QSLs) & the Indian Ocean (96 QSLs), pre-1945 countries (631 QSLs), French Departments (535 QSLs) and USA (50 QSLs), plus a gallery for cards not accepted by DXCC (107 QSLs). Several cards are still needed and your participation is encouraged - please visit <http://LesNouvellesdx.fr> and send your comments to lesnouvellesdx@free.fr [TNX F6AJA]

TOP LISTS ---> The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. Please note that QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow@fastwebnet.it)

VY1JA QRT ---> Jay, VY1JA (N8JA) says his work stint in VY0 has concluded, and he is back home in the Yukon. His last logged QSO was made on 19 October 2008 and he is retiring from amateur radio. His station has been dismantled, and he is giving/selling everything to "younger Yukon hams". Steve, N3SL will continue to keep his logs and answer QSLs, while Akio, JA3JM handles QSLing for Japan. [TNX N3SL]

WHQS AWARD ---> "QTC", the Polish Amateur Radio Journal, sponsors the 2009 W-HQ-S award for working at least ten HQ stations during the upcoming IARU HF Contest. Rules and picture of the certificate can be found at <http://www.skjkc.pl/pqa/index.php?go=news&dzial=swiat&id=362> [TNX SP2FAP]

ZK2V ---> Chris, ZL1CT reports that, despite "flat" band conditions, he made 15817 QSOs (including 1279 QSOs on RTTY) 160, 80, 60, 40, 30, 20, 15 and 12 metres during his recent ZK2V DXpedition to Niue (<http://www.zk2v.com/>). Jeff, N8CC was the overall leader with 16 band-slots out of a possible 20. QSL via N3SL, direct or bureau. All QSOs have been uploaded to LoTW, resulting in more than 2000 QSO matches.
